Dimensions: h14"w39"

Cantera Bubbler Sm  
#2055-FS

Consist of: 6033-SP, 316

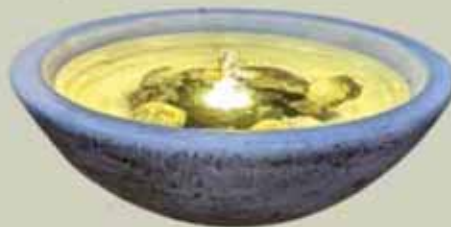

Dimensions: h11"w29"

## Additional Information

### Pro Tip

- Add a light to any bubbler-Suggest AG-46 Large ring light
- You can cut the copper or tubing right below the waterline for a more bubbling subtle effect. This will create a bubble flow instead of a geyser effect.
- Add your own rocks to hide the pump and give the bubbler a more natural zen appearance.
